1. How long have you been working on your project?
  
2. Where did you conduct the major part of your work (i.e. home, school, university lab, medical center, etc.)?
  
3. What steps led you to formulate your hypothesis? (Where did you get the idea for your research?) Please be specific.
  
  
  
  
  
  
  
  
  
  
4. If you worked in an institutional setting, did you work on your project as part of a team or group?
  
  
  
  
  
  
  
  
  
  
5. If part of a group, list the names of people who assisted you and their specific roles.
  
  
  
  
  
  
  
  
  
  
6. What was your role on the team, and what was the actual research that you performed?

7. Describe the parts of the research for which you received help (i.e. literature search, hypothesis, experimental design, use of special equipment, data gathering, evaluation of data, statistical analysis, conclusions, preparation of written material).

8. If this research is a continuation of a previous investigation, describe how you have expanded your investigation.
